SAS  
Import Wizard

---

Select file

The Import Wizard can create a file containing PROC IMPORT statements that can be used in SAS programs to import this data again.

If you want these statements to be generated, enter the filename where they should be saved:

d:\saslearn\importexcel\importdata.sas

Browse...

☐ Replace file if it exists.

The image shows two icons side-by-side. On the left is a yellow icon representing a library, consisting of two stacked rectangular blocks. On the right is a white icon representing file shortcuts, showing a spiral-bound notepad with a pencil. Below the library icon is the text 'Libraries', and below the notepad icon is the text 'File Shortcuts'.
